INTERNATIONAL LASER  
DISPLAY ASSOCIATION

[www.laserist.org](http://www.laserist.org)

For the most up-to-date list of ILDA members, including links to their Web Sites, use our on-line Company Finder Web tool at: [www.laserist.org](http://www.laserist.org), or contact ILDA at: (+1) 503-407-0289.

Membership in ILDA is open to laser show producers, equipment suppliers, nonprofits, individuals and students. Visit [www.laserist.org/join.htm](http://www.laserist.org/join.htm) for full details.

The five categories of membership are:

• Corporate (*producers of laser shows*) • Affiliate (*distributors, manufacturers and service providers*) • Not-for-Profit (*museums, schools, etc.*) • Student (*full-time*) • Individual (*not for commercial purposes, such as promoting services or products*).

## Corporate Members

## ILDA Mission Statement & Membership Benefits

The International Laser Display Association (ILDA), founded in 1986, is the world's leading organisation dedicated to advancing the use of laser displays in the fields of art, entertainment and education.

ILDA promotes the use of laser displays in the international marketplace through awards programs, publications, technology standards and a code of ethics. ILDA also represents the industry on safety issues and provides forums for members to exchange ideas, forge partnerships and explore new technologies. ILDA helps members relate to each other not as competitors, but as colleagues who share common goals and problems. Working together, members have the ability to solve problems faster and more productively than working alone.

Succeeding in the field of laser displays requires an unusual mix of artistic talent, technical acumen and business savvy. ILDA's publications, awards programs, conferences and committee activities are designed to help members become more successful. But one of ILDA's greatest benefits is one that doesn't fall under any particular category: it's the ability to meet your peers and discuss issues as colleagues, rather than competitors.

ILDA's annual conference, its committees and its print and web publications open the door to countless opportunities to forge partnerships, explore new options and network with the many talented people who comprise the laser display industry.

### ILDA

## Lytle Says Farewell to ILDA

I remember when I saw laser light for the first time. It was almost 30 years ago in a student apartment. At the time it was incredible to see 2mW of laser light bouncing off a mirrored speaker cone. Little did I guess that I would someday be the editor of the Laserist magazine and ILDA's Executive Director.

But just as all things must pass, it's time for me to say farewell to these endeavours. A new opportunity to work with one of the leading nonprofit organisations in the US grabbed my attention just like a laser did so many years ago.

It's tough to say goodbye. ILDA, however, has made great strides recently: membership has grown to historically high levels, we held our first "no-host" conference in Las Vegas, and I was the first representative of ILDA to testify before the US Centre for Devices & Radiological Health.

There were a huge number of stories I reported on and an incredible array of visual sights I was fortunate to feast my eyes on. Best of all, however, were the laserists around the world I was lucky enough to meet. I will always keep my eyes open for the next laser display, and for laserists I have yet to meet.
